TOTAL ASSESSMENT SCORE (VA SCORE PLUS LIFESTYLE SCORE)

Important
A patient with a total assessment score of 7 and over should be referred, unless you have indicated reasons below for not referring. Please provide description of cataract and any known co-morbidities below.

A patient with a total assessment score of under 7 should be advised that a referral for a cataract operation is not essential at this time – the patient should be advised to return for a further assessment as and when you see fit. If the patient has a score of less than 7 but you feel a referral is still required, please state why.

I claim payment as per the Direct Cataract Referral Scheme.
